ClipDrive Bio Awarded 2003 "Product of the Year Award" By BiometriTech™ Ezine

Secure portable flash drive selected for its security, versatility, and durability

Montreal, Quebec - February 23, 2004 - BiometriTech Ezine has awarded ClipDrive Bio Product of the Year for 2003, as one of only seven products selected. Memory Experts International (MXI), a leading provider of secure, portable data storage devices, is the developer of the award-winning biometric device.

Produced in the US, ClipDrive Bio uses fingerprint recognition technology to safeguard a secure partition on the USB 2.0/1.1 device. All data saved on the secure partition portion of the ClipDrive Bio is automatically encrypted using 128-bit Advanced Encryption Standard technology and hidden. Once the drive is unlocked via a positive fingerprint scan, it behaves exactly like all other disk drives and may be used with existing applications and encryption software.

"The tech security sector is continually caught in a cycle of catch-up with hackers and internal data thieves," said Mike Kieran, director of sales and marketing at MXI. "ClipDrive Bio provides companies with a powerful solution; a fingerprint cannot be forgotten, stolen or hacked. We are honored that BiometriTech has recognized our commitment to portable storage excellence," Kieran said.

Availability

ClipDrive Bio is available today in the United States, Canada, and Europe via phone, fax and the World Wide Web. ClipDrive Bio is available in 64, 128, 256 and 512MB versions. Models with 1 or 2GB of storage are also available. For more information call Memory Experts International at 1-888-440-0400 or visit <http://www.memoryexpertsinc.com> or www.clipdrive.com.

About Memory Experts International

Memory Experts International is a world class, multinational manufacturer of highly secure, portable data storage media devices, biometric based system access controls, hard drive subsystems, memory modules and cabling technologies for the computer and office equipment markets. With over 10 years of experience in delivering quality products, MXI combines vast industry knowledge with unbeatable time to market to meet the ever changing and complex needs of their customers. <http://www.memoryexpertsinc.com/>
